Lesson 25 - Quiz

Read this debate between two politicians and fill in the gaps with the correct words:

alleviating	endangered	irreparable	shelters
clean	fossil	line	shortages
climate	harming	margins	warming
disadvantaged	hunger	renewable	welfare

Jim: If I'm elected, m	y number one priority will be	poverty. A large portion of our country's
population lives belo	w the poverty, and it's	a fact that young people from
bac	kgrounds are more likely to engage in	criminal activity. My opponent, on the other
hand, wants to cut fu	unding for the program	and leave millions of people without help.
George: I believe it is	s a mistake to focus on our country alo	one; we must remember that we are part of a
global community. O	pening up more homeless	is not a long-term solution to help
those on the	of society. However, investing i	nenergy will enable us to
grow our economy w	vithout the environment.	This will benefit our country and our world.
Jim: That's a noble g	oal, but we have more pressing proble	ems. I seriously doubt our citizens who are
dying of	care about protecting	species and preventing global
Plus, i	t's not scientifically proven that huma	ns can even cause damage to
the planet.		
George: Don't you se	ee that the two issues are related? Du	e to change, the rain patterns have
changed and our agr	icultural sector is not as strong as it o	nce was. This results in food It's
only going to get wo	rse unless we end our dependence on	fuels and start using
resou	irces.	

Lesson 25 - Quiz Answers

Jim: If I'm elected, my number one priority will be <u>alleviating</u> poverty. A large portion of our country's population lives below the poverty <u>line</u>, and it's a fact that young people from <u>disadvantaged</u> backgrounds are more likely to engage in criminal activity. My opponent, on the other hand, wants to cut funding for the <u>welfare</u> program and leave millions of people without help.

George: I believe it is a mistake to focus on our country alone; we must remember that we are part of a global community. Opening up more homeless <u>shelters</u> is not a long-term solution to help those on the <u>margins</u> of society. However, investing in <u>clean</u> energy will enable us to grow our economy without <u>harming</u> the environment. This will benefit our country and our world.

Jim: That's a noble goal, but we have more pressing problems. I seriously doubt our citizens who are dying of <u>hunger</u> care about protecting <u>endangered</u> species and preventing global <u>warming</u>. Plus, it's not scientifically proven that humans can even cause <u>irreparable</u> damage to the planet.

George: Don't you see that the two issues are related? Due to <u>climate</u> change, the rain patterns have changed and our agricultural sector is not as strong as it once was. This results in food <u>shortages</u>. It's only going to get worse unless we end our dependence on <u>fossil</u> fuels and start using <u>renewable</u> resources.
