Jeff, Canada

What kind of music do I listen to? I listen to all kinds of music, every **genre** of music I have and the type of music I listen to depends on the type of **mood** I'm in, so if it's night time and I want to relax, I listen to classical. If I'm doing work, I want to listen to something **mellow** or if I'm exercising, I listen to something more upbeat so I love all kinds of music and it just depends on my mood.

Shibika, India

I like listening to Indian music in fact, all kinds of Indian music, and I like listening to English music as well but I don't prefer to listen to rap.

Fred, Canada

My favorite music would have to be jazz. I love jazz from the bottom of my heart. I think it's music that suits me. It really **brings out** so many great emotions in me. It's also a way for me to relax and just enjoy my time and I just really love it. It makes me feel good.

Lupe, United States / Mexico

I'm a music lover so when people ask me what my favorite type of music is I really never have a **straight answer**. I love to listen to all types of music and I love listening to Spanish music, English Music. I have favorite singers, not necessarily a favorite genre. I really listen to whatever I'm in the mood for. If I'm going out I love fast music so that I can dance. If I just want to relax, I'll listen maybe to a little bit of jazz, blues, or just **lounging** music.

Rebecca. Australia

What kind of music do I like? The music I like best is the bands that play live in the pubs. Generally, they are really good to go and watch. We have a lot of bands come through my town where I live. Generally every Saturday night we go to a band and watch it. It's better than listening to it on the radio.

Swinky, Kenya

What kind of music do I like? My **tastes** are so diverse. I can't really point out what kind of music I like but I'm more inclined to R&B and you know nature music, like listening to whales listening to each other and I also like Bollywood music and reggae, some styles of reggae are really enjoyable.
